

Proposed Elements of the Cultural Resources Management Plan

Purpose: To develop management and conservation measures that will ensure the long-term protection of human remains and artifacts at the property.

- Establish and train an on-site property manager and other personnel.
- Establish Standard Operating Procedures for site protection and security.
- Describe environmental compliance requirements and procedures.
- Provide measures to avoid, reduce, or compensate for the unexpected need for site disturbance in the historic cemetery area.
- Establish procedures for the management and public accessibility of burial records, archaeological notes, meeting records, and other documentation.
- List the required qualifications for cultural resources management personnel.
- Establish protocols for ongoing consultation with interested parties to identify issues and concerns related to the long-term management and conservation of the historic cemetery area of the site.
